

We help people in the abortion industry leave their jobs and rediscover the **peace and joy** they've been missing.

HOW IT WORKS

01

STEP 1

Reach out to our organization via call, text or email to get started on the journey to real freedom!

02

STEP 2

Our intake manager will listen to your concerns, explain ways we can help you and connect you with an experienced client manager who will walk this journey with you.

WE CAN HELP!

03

STEP 3

Your client manager will help you with job leads, discuss possible financial assistance, and introduce you to a network of resources, including connecting you with a community of former abortion clinic workers who have similar experiences.

04

STEP 4

Rediscover the peace and joy you've been missing in your life.

**The key to experience
peace is within reach.**
